CONTENTS OF VOLUME 89

No. 1, July 1992

B. Pelster and W. E. Bemis (U.S.A.): Structure and function of the external gill filaments of embryonic skates (*Raja erinacea*) 1

R. Kikuchi, J. Hildebrandt, K. Sekizawa, H. Sasaki and K. Takishima (Japan, U.S.A.): Influence of lung volume history and increased surface forces on collateral resistance 15

R. B. Banzett, C. S. Nations, N. Wang, J. P. Butler and J. L. Lehr (U.S.A.): Mechanical independence of wingbeat and breathing in starlings 27

E. van Lunteren and T. E. Dick (U.S.A.): Breath-to-breath variability in hypoglossal motor unit firing 37

F. Hayashi and J. Lipski (New Zealand): The role of inhibitory amino acids in control of respiratory motor output in an arterially perfused rat 47

K. Cao, C. W. Zwillich, M. Berthon-Jones and C. E. Sullivan (Australia): Ventilatory response to sustained eucapnic hypoxia in the adult conscious dog 65

F. Lofaso, D. Isabey, H. Lorino, A. Harf and P. Scheid (France): Respiratory response to positive and negative inspiratory pressure in humans 75

F. Lofaso, D. Isabey, A. Harf and P. Scheid (France): Airway anesthesia during positive and negative inspiratory pressure breathing in man 89

H. L. Manning, R. Brown, S. M. Scharf, D. E. Leith, J. W. Weiss, S. E. Weinberger and R. M. Schwartzstein (U.S.A.): Ventilatory and $P_{0.1}$ response to hypercapnia in quadriplegia 97

O. Mathieu-Costello, R. K. Suarez and P. W. Hochachka (U.S.A., Canada): Capillary-to-fiber geometry and mitochondrial density in hummingbird flight muscle 113

No. 2, August 1992

J. Li and S. J. Lai-Fook (U.S.A.): Effect of hyaluronidase on interstitial pressure response to edema in air-inflated rabbit lung 133

D. F. Boggs and C. G. Irvin (U.S.A.): Respiratory mechanics of the coatimundi and woodchuck 147

D. F. Boggs, C. Colby, B. R. Williams, Jr. and D. L. Kilgore, Jr. (U.S.A.): Chemosensitivity and breathing pattern regulation of the coatimundi and woodchuck 157

S. K. Powers, S. Grinton, J. Lawler, D. Criswell and S. Dodd (U.S.A.): High intensity exercise training-induced metabolic alterations in respiratory muscles 169

R. F. Fregosi, J.-C. Hwang, D. Bartlett, Jr. and W. M. St. John (U.S.A., Republic of China): Activity of abdominal muscle motoneurons during hypercapnia 179

S. K. Powers, D. Criswell, F.-K. Lieu, S. Dodd and H. Silverman (U.S.A.): Diaphragmatic fiber type specific adaptation to endurance exercise 195

L. C. Henson, D. S. Ward and B. J. Whipp (U.S.A.): Effect of dopamine on ventilatory response to incremental exercise in man 209

D. Paydarfar, F. L. Eldridge, P. G. Wagner and R. T. Dowell (U.S.A.): Neural respiratory responses to cortically induced seizures in cats 225

I. Yamawaki, J. Tamaoki, T. Yamauchi and K. Konno (Japan): Angiotensin II potentiates neurally mediated contraction of rabbit airway smooth muscle 239

K. Zayasu, T. Fukushima, M. Yamaya, K. Sekizawa, K. Yamauchi, H. Sasaki and T. Takishima (Japan): Opsonized zymosan decreases cytoplasmic motility of alveolar macrophages in dogs 249

No. 3, September 1992

C. R. Talbot (USA): Regional variation and control of cutaneous gas exchange in bullfrogs 261

G. M. Barnas, G. Ho, M. D. Green, P. Harinath, A. J. Smalley, D. N. Campbell and J. E. Mendham (USA): Effects of analysis method and forcing waveform on measurement of respiratory mechanics 273

A. Oliven and S. G. Kelsen (Israel, USA): Inspiratory muscle activity during pulmonary edema in anesthetized dogs 287
F. B. Sant'Ambrogio, J. W. Anderson and G. Sant'Ambrogio (USA): Menthol in the upper airway depresses ventilation in newborn dogs 299
A. Kawashima, K. Kubo, Y. Matsuzawa, T. Kobayashi and M. Sekiguchi (Japan): Hypoxia-induced ANP secretion in subjects susceptible to high-altitude pulmonary edema 309
S. Zanconato, D. M. Cooper, Y. Armon and S. Epstein (USA): Effect of increased metabolic rate on oxygen isotopic fractionation 319
P. O. Iversen, T. Flatebø and G. Nicolaysen (Norway): Uneven perfusion within single cat muscles: Nitric oxide and citrate synthase play no role 329
L. Zocchi, D. Cremaschi and E. Agostoni (Italy): Liquid volume, Na^+ and mannitol concentration in a hypertonic mannitol-Ringer hydrothorax 341
K. A. Ross and W. M. Thurlbeck (Canada): Lung growth n newborn guinea pigs: Effects of endurance exercise 353
